

A sustainable future: Our planet, Accor's commitment

Hospitality Net | 12/12/2022 09:27 PM

Sustainability is an essential component of our hotels' operations, which are leading the way with innovative initiatives, while being mindful of their locales. Deeply anchored in their local communities and ecosystems, our hotels strive to preserve biodiversity for inhabitants, visitors and future generations. Remaining highly committed to its protection, we are seizing the occasion of the UN Biodiversity Conference in Montreal (COP15) to shine light on our teams' efforts and achievements, through the launch of our mini-series.
