

## Shree Cement's Ras plant laboratory earns prestigious NABL accreditation

Dais World | 15/10/2024 02:22 PM

*Ras is Shree Cement's largest single location plant in Asia*

Shree Cement's laboratory at its Ras plant in Rajasthan, Asia's largest single location cement manufacturing facility—has achieved accreditation from the National Accreditation Board for Testing and Calibration Laboratories (NABL), under the Quality Council of India. This prestigious certification affirms the lab's adherence to the rigorous ISO/IEC 17025:2017 standards, marking a significant milestone in technical excellence and quality assurance for testing and calibration services.

The NABL accreditation underscores the technical proficiency, credibility, and reliability of Shree Cement's quality control processes. It represents a vital step in the company's ongoing commitment to upholding stringent quality assurance standards, ensuring that every batch of cement produced meets the highest levels of safety, performance, and durability.

Speaking on the accreditation, **Neeraj Akhoury, Managing Director at Shree Cement**, expressed his satisfaction with the achievement and stated, "We are immensely proud of this NABL accreditation for our Ras plant laboratory, which reinforces our commitment to excellence and innovation in quality assurance. This achievement underscores our dedication to producing high-quality, reliable products that meet the most stringent global standards. At Shree Cement, we continuously strive to enhance our operational capabilities, and this recognition from NABL further validates our efforts to deliver sustainable and world-class building materials to our customers."

The Quality Control Laboratory at Ras plays a critical role in monitoring and maintaining the plant's production quality, overseeing a comprehensive range of testing protocols to ensure consistent performance across all product lines. With NABL's seal of approval, the lab has been

recognized for its capability to perform precise and accurate testing, reinforcing Shree Cement's promise of superior product quality.

The NABL accreditation of Shree Cement's Quality Control Laboratory supports the company's commitment to international best practices and operational excellence. This milestone enhances customer satisfaction by assuring the reliability of products that meet stringent quality benchmarks. As a member of the International Laboratory Accreditation Cooperation (ILAC) and the Asia Pacific Accreditation Cooperation (APAC), NABL ensures that accredited test results are globally recognized. Consequently, Shree Cement's results are deemed equivalent to those from other international labs, bolstering the company's credibility on the global stage.

## About Shree Cement Limited

One of the leading cement groups in India, Shree Cement Limited ('SCL') (BSE: **500387**/ NSE: **SHREECEM**) is known for its industry leading green credentials, cutting edge innovative practices and cost leadership.
